Extended Product Life at Lower Running Cost

Since our products are often manufactured with fewer mechanical / running parts, they are more reliable and easier to repair in the event that service is necessary. Our products are designed to be easy to service and no special service tools or equipment are required. This means that our customers can look forward to years of quality performance from their Destiny Seatings products with the lowest maintenance costs in the furniture industry.

In Destiny Seatings We are procuring Chairs parts from Reliable and trusted source, we are developing few models in which we used the PP Shells import from Italy and BIFMA Marked Gas Lifts. It is highly trusted mark in furniture Industry. But, now change came quickly if anyone not changes according to the requirement of a customer or not tries to manufacture his products a good quality or product matching with international standard do not survive any more.

Our continuing success has come about through our ability to change, and this skill has never been more important than it is today. Not only are new advancements appearing every day, but markets, distribution channels as well as the competition are changing all the time.

In recognition of this change, Destiny Seatings embarked on a comprehensive program to provide a much wider product range, from basic low-cost products to high-technology products. We are also broadening our distribution to reach previously unavailable markets, and we are re-engineering our information systems throughout our Indian organization to meet 21st century standards.

Destiny Seatings is constantly working towards more advanced development and state-of-the-art technology with the promise of an even brighter future, a future that will provide greater opportunities and more rewards for our global associates, while providing a better service to our customers.
